

# TP-9000 TIMPANI

## INTRODUCING THE ARRIVAL OF THE FINEST.

### Standard Options

> Heavy-duty frame

### Benefit

> Minimizes vibration transfer so as not to reduce resonance of a clear fundamental tone

> Fine tuner adjustment

> Allows subtle adjustment of pitch by hand or side of leg

> Ball-bearing pedal locking mechanism

> Ensures secure tuning without preset locking position

> 4mm, drawn steel rim

> Provides rigid tuning throughout the instrument's range

> Freely suspended, hand-hammered copper bowl

> Produces a full resonant sound and clear pitch

> Adjustable foot stabilizers

> Allows leveling or slight tilting of timpano

> Adjustable kick plate

> For maximum player comfort

### Professional Sound and Features

Designed and tested with the assistance of professional timpanists from around the world, Yamaha is proud to introduce the TP-9000 series timpani featuring heavy-duty frames, a fine tuner and locking pedal mechanism. Both Dresden and Berlin style pedal systems are available with German or American style set-up. All of the 9000 series timpani provide the clear, resonant sound of the Yamaha hand-hammered bowl. They also feature a heavy-duty rim for additional support. An extended tuning gauge with quiet mechanisms also improves usability. Seven sizes are available by special order including 20", 23", 24", 26", 27", 29" and 32." Included with timpani sets are: wood head protector, long drop covers, rolling dolly and tuning key.

*Play the very best you can!™*
